

To whom it may concern: Please do not jeopardize FM translator services by expanding LPFM. I, along with several hundred thousands, listen to K-LOVE exclusively of all other radio stations. This station is very important to me and my family and our community as a whole and we do not want to lose it. K-LOVE is the only station on the air waves that many families feel safe to let their children listen to. K-LOVE is more to us than just a radio station. It is part of our daily lives. We listen to it in our cars to and from work. We listen to it at work. And we listen to it at home. Please reconsider any action that would negatively affect the radio station that we love and support. Thank you.
